| | ASRCC Rep (unfilled) | |
| X | David Lee, A&R | |
| X | Paul Richardson, Chemistry | |
| X | Brandon Owashi, IE | |

1. Discussed what occurred in the Leadership Councils and Student Equity Committees during their previous meetings

2. Discussed and provided feedback for the Data Literacy Session #1 slide deck that the Office of Institutional Effectiveness is working on
   a. The presentation is a good level of complexity so that all employees should be able to participate and should gain an understanding of the content, especially in small groups
   b. Home College is responsible for at least the following:
      i. Priority registration
      ii. Financial aid
      iii. Some student service funding
   c. Use examples of data, similar to what is used in Data Coaching, to help solidify the types of data. This could be a breakout room activity
   d. Will need to put extra emphasis on leading and lagging metrics because they are bit confusing.
      i. The Vision for Success graphic has a lot of information in it so it can be hard to follow. Could include a separate slide that defines leading and lagging metrics
