

Riverside City College

Associate Degree for TransferSM

California Community Colleges are now offering Associate Degrees for Transfer (ADT's) to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses. Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units. To view the most current list of Riverside City College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please go to: www.calstate.edu/transfer/adt-search/search.shtml. Students are encouraged to meet with a Riverside City College counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

2024-2025

FILM, TELEVISION, AND ELECTRONIC MEDIA (CSUGE) AS993 (IGETC) AS994

Associate in Arts in Film, Television and Video

The Associate in Arts in Film, Television, and Electronic Media for Transfer degree is designed to prepare students to successfully transfer to the California State University System. This degree will satisfy the lower division requirements for the eventual conferral of the Bachelor's Degree Program in in Film, Television, and Electronic media; or a major deemed similar at a CSU campus. An Associates in Arts for Transfer Degree will be awarded upon successful completion of 18 units of FTV and FST and the general education requirements of one of the following IGETC, CSUGE. The intent of this degree is to assist students in seamlessly transferring to a CSU.

Program Learning Outcomes

Upon successful completion of this program, student should be able to:

- Demonstrate proficiency in the use of key technologies of motion picture and video production including cinematography, editing, sound recording and editing, and lighting.
- Plan and produce film projects from concept to finished product, meeting industry standards for camerawork, sound, lighting, and editing and demonstrating understanding of filmmaking as an aesthetic, cultural, technological, and collaborative form of expression.
- Identify the major elements of film expression: mise-en-scene, the shot, editing, sound, narrative, and genre in film; perceive the historical, multicultural, and international technologies, traditions, and values that have influenced film's development; and apply college-level methods of research, analysis, and evaluation to film, and produce college-level essays and research papers.
